United Wire

Quality, Health, Safety and Environment Policy

The long-term business success of United Wire depends on our ability to continually improve the quality of our products and services while protecting people and the environment. Emphasis must be placed on ensuring human health, operational safety, environmental protection, quality enhancement and community goodwill. This commitment is in the best interests of our customers, our employees, our stakeholders and those in the communities in which we work and live.

United Wire requires the active commitment to, and support of QHSE from all employees. In addition, line management has a leadership role in the communication and implementation of, and ensuring compliance with, QHSE policies, standards and applicable requirements. We are committed to:

- Communicate openly with interested parties and ensure understanding of our QHSE policy, programs and performance
- Be knowledgeable of regulations for understanding of our legal obligations and other requirements.
- Protect the health and safety of our people at all times and in all circumstances through the prevention of injury and ill health
- Minimize our impact on the environment through pollution prevention and control of emissions, the efficient use of natural resources and the reduction and recycling of waste
- Provide a framework for setting QHSE goals and performance objectives and the resources needed to successfully achieve them
- Maintain a structured management system focused on understanding, meeting, then exceeding customer expectations
- Monitor, evaluate and continually improve our QHSE performance through the definition of operational standards, training, assessments and audits
- Eliminate QHSE incidents
- Be fully prepared to respond to any QHSE emergency
- Educate our employees, customers, contractors, and business partners on the safe and environmentally responsible use of our services and products, and how their actions can influence QHSE performance

We are committed to the proactive integration of QHSE objectives into our management system at all levels, actively reinforced by reward programs that recognize outstanding QHSE performance demonstrated by our employees and contractors.

The commitments in this Policy shall be reviewed to ensure ongoing suitability and are in addition to our basic obligation to comply with United Wire standards, as well as all applicable laws and regulations where we operate. This is critical to our business success because it reduces risk and adds value to our products and services.
